PROFILE

I am a Front-End Web Developer and designer with five years of experience specializing in building engaging and responsive user interfaces. My journey began in 2018 during high school, and I earned a Diploma in Web Development from TAFE NSW in 2020. I excel in HTML, CSS, JavaScript, Angular, and other front-end technologies, consistently delivering innovative web solutions. With strong communication skills, a passion for problem-solving, and a commitment to staying current with industry trends, I am eager to contribute to dynamic web development projects.

WORK EXPERIENCE

Freelance Web Designer   May 2022-Present

- Designed HTML5 templates and landing pages with a focus on UX/UI and responsive designs.

- Utilized modern JavaScript frameworks like React.js to develop web applications.

- Contributed to Shopify development projects, implementing custom designs and functionalities.

- Designed static websites for clients, focusing on UI/UX design using Figma.

- Configured WordPress websites and performed bug fixing to ensure optimal performance.

- Implemented SEO optimization techniques to improve the visibility of business websites.

- Optimized website speed and other configurations for enhanced user experience.

- Provided web hosting and domain registration services for clients.
